

THARINDU N. MADHUSANKHA

FULL-STACK SOFTWARE ENGINEER

- +94 71 333 1900
- mail@tharindu.dev
- tharindu.dev
- github.com/truethari
- /imtharindu

PROFILE

A highly adaptable full-stack software engineer with strong expertise in both frontend and backend development. Proficient in a wide range of programming languages, with the ability to quickly learn and apply new technologies to solve complex problems. Experienced in hosting and server management, including both self-hosted and managed environments. Comfortable working in Agile development environments, and well-versed in modern development tools and practices. Proven ability to rapidly acquire new technical skills and deliver effective, production-ready solutions under tight deadlines.

TECHNICAL SKILLS

- Typescript
- Next.js
- MongoDB
- Bun.js
- Javascript
- React.js
- Web3
- AWS
- Python
- Express.js
- Solidity

Crypto Canary Network | Feb 2024 – Aug 2024

- Built and maintained web platforms with a focus on user experience and security.
- Integrated APIs and managed database systems to ensure data integrity.
- Developed multiple web games according to the client needs.

PROJECTS

Liquidfi (Next.js + Expressjs + Typescript)

<https://www.liquidfi.app>

LiquidFi is an NFT marketplace revolutionizing digital asset trading, I contribute as a full-stack web developer, enhancing core platform functionality, user experience, and blockchain contract developments and integration.

Sharkroll Casino (Next.js + Expressjs + Typescript)

<https://www.casino.sharkroll.io>

Contributed to the development of Sharkroll, a blockchain-based online casino platform, focusing on both frontend and backend components and integrations.

Vesta Group (Next.js + Typescript)

<https://www.vestagroup.io>

Contributed to the development of Vesta, a blockchain-based platform for tokenizing real-world assets, focusing on creating responsive and user-friendly interfaces to enhance the investment experience.

PERSONAL PROJECTS

OpensourceToolkit (Nextjs + Typescript)

<https://opensource toolkit.com>

<https://github.com/truethari/OpensourceToolkit>

A modern, comprehensive collection of developer and utility tools built with Next.js 15, React 19, and TypeScript. Designed for developers, security professionals, and anyone who needs reliable, fast, and secure utility tools.

Reactfolio (Reactjs + Javascript)

<https://github.com/truethari/reactfolio>

Reactfolio is a sleek and responsive personal portfolio template built using React, perfect for showcasing your work and skills in a professional manner.

ACHIEVEMENTS

Hyperliquid Community Hackathon (2025) Runners up

<https://contract-factory.tharindu.dev>

<https://taikai.network/hl-hackathon-organizers/hackathons/hl-hackathon/projects/cmdv7ohf200sslkdidbbhapm9/idea>

I participated with my Contract Factory Project, and it was awarded Runner-Up among over 200 projects with some of the top developers in Web3 world during the hackathon.
